

SKILLS VERIFICATION FORM FOR EMERGENCY MEDICAL TECHNICIANS

STUDENT NAME _____ CLASS NUMBER _____

CLASS LOCATION _____

SKILLS	DATE	INSTR INIT	SKILLS	DATE	NSTR INIT
PATIENT ASSESSMENT			AIRWAY OBSTRUCTION		
Scene Size Up			Conscious Adult/Child		
Initial			Conscious Infant		
Focused Trauma			Con to Unconscious Adult		
Focused Medical			Con to Unconscious Child		
Detailed			Con to Unconscious Infant		
On-going			Laryngectomies		
BSI			Unconscious Adult/Child		
DIAGNOSTIC SIGNS			Unconscious Infant		
Level of Consciousness					
Pulses			CARDIAC ARREST		
Brachial			Single Rescuer		
Femoral			Adult		
Radial			Child		
Carotid			Infant		
Respirations			Two Rescuer - Adult		
Rate/Depth			CPR in Transport, Adult		
Breath Sounds			Infant		
Blood Pressure			Child		
Auscultation			AED Use		
Palpation			AIRWAY ADJUNCTS		
Pupils			Nasopharyngeal airways		
Skin Color/Temp			Oropharyngeal Airways		
Capillary Refill <6years			Oxygen Equipment		
			Bag Valve Device		
BLEEDING AND SHOCK			Demand Valve		
Amputations			Nasal Cannulae		
Bleeding Control			Non-Rebreather		
Dressing & Bandaging			Pocket Mask		
Head & Face			Oxygen Setup/Tear Down		
Neck			Suction		
Torso					
Extremities			BURNS		
			Chemical		
SOFT TISSUE INJURIES			Radiation		
Abdominal Evisceration			Electrical		
Blunt Abdominal Injury			Thermal		
Impaled Objects:					
Eye					
Face			CENTRAL NERVOUS SYSTEM		
Chest			Cervical Collar		
Abdomen			Helmet Removal		
Extremities			Long Backboard/Straps		
Lacerations/Incisions/Abrasions/ Avulsions/Penetrations of:			Short Backboard/Straps		
Eye			Wrap Around Backboard		
		INSTR			NSTR

SKILLS	DATE	INIT	SKILLS	DATE	INIT
SOFT TISSUE INJURIES (continued)			AMBULANCE OPERATIONS		
Head and Face			Patient Record Form		
Neck			Simulated Radio Report		
Torso					
Extremities			TRIAGE & MCI		
PSD'S AND SPLINTING			CHILDBIRTH		
Air Splint/Rigid Splint/Sling & Swathe/Other			Excessive Bleeding		
Upper Extremities:			Delivery:		
Clavicle			Arm/Leg presentation		
Elbow			Breech		
Fingers			Normal		
Hand			Prolapsed Cord		
Humerus			Post Delivery		
Radius/Ulna			Pre-Delivery		
Scapula					
			INJURIES TO THE CHEST		
Wrist			Flail Chest		
Lower Extremities:			Hemothorax/Pneumothorax		
Ankle			Pericardial Tamponade		
Femur			Subcutaneous Emphysema		
Fibula/Tibia			Sucking Chest Wound		
Foot			Traumatic Asphyxia		
Hip					
Knee			PATIENT LIFTING AND MOVING		
Pelvis			Emergency Drag		
Toes			Log Roll		
MAST			Two-man Lift		
Traction Splints			Reeves		
			Scoop Stretcher		
EXTRICATION			CID's		
Access			INTERVENTIONN		
Through Door			AED		
Through Roof			Auto-Injector (Epinephrine)		
Through Window			Nitrostat		
Hazard Control			Prescribed Inhaler		
Proper Protective Gear			Oral Glucose		
Vehicle Stabilization			Activated Charcoal		
			HAZARDOUS MATERIALS		
			Use of DOT Guidebook		

I verify that the above instructor's initials are those of approved instructors for this program. The presence of the initials signifies student familiarization and successful practice with the skill. No guarantee of future performance is or should be implied by the presence of the initials.

Course Coordinator: _____ Date: _____

Medical Director: _____ Date: _____
